

# Forensic

Explore an Advisory career within this team of 450+ professionals nationwide

### What we do

Amid an environment of new types of risks and potential threats, our team serves as a trusted advisor to some of the world's leading enterprises, offering support in the prevention, detection, and response to fraud, waste, abuse and other forms of misconduct.

### How we deliver

There are many ways we support our clients, including assistance with:

- Fraud, misconduct, and corruption investigations
- Financial and regulatory dispute consulting and expert services
- Collection, data processing, hosting, and/or production of documentation in response to investigations, disputes, or regulatory inquiries
- Addressing financial crimes, such as money laundering and terrorist financing
- Third-party reviews of licenses, vendors, and suppliers
- Compliance with state or local regulations or internal state or local government protocols

### Where we've made an impact

A subsidiary of a multinational company was suspected of engaging in bribery and corruption, and our team was contracted to conduct a thorough investigation. After an in-depth analysis, which included the review of email records, interviews with personnel, and financial analysis, we identified several irregularities. As a result of our investigation, the company took action to remediate and address control deficiencies.

### Who we hire

Candidates pursuing a bachelor's or master's degree one of the following fields:

#### Business field

(May include disciplines such as accounting, finance, economics, and business administration)

#### IT-related field

(May include disciplines such as technology, information systems, computer science, and management information systems)

#### Other

(May include disciplines such as mathematics, statistics, law, criminal justice, social science, political science, health policy, and public policy)

### Ways we work

We work in a team setting and on projects that have the potential to take us on-site to client locations, often with relatively short notice.

### New hire experience

Our distinct Forensic and Audit rotation program affords many Forensic new hires the opportunity to work across both practices at the onset of their careers.

Includes two 6-month rotations into the Audit practice

Offers high level of training on financial statements, controls, and business processes

Candidates must be CPA-eligible for participation in this program

Available in key hub offices and within specific Forensic disciplines

**Our team brings the right industry experience to help organizations in their efforts to achieve the highest level of integrity.**
